

ATTACHMENT 'A'

Recommended Tree Species for the Town of Tecumseh

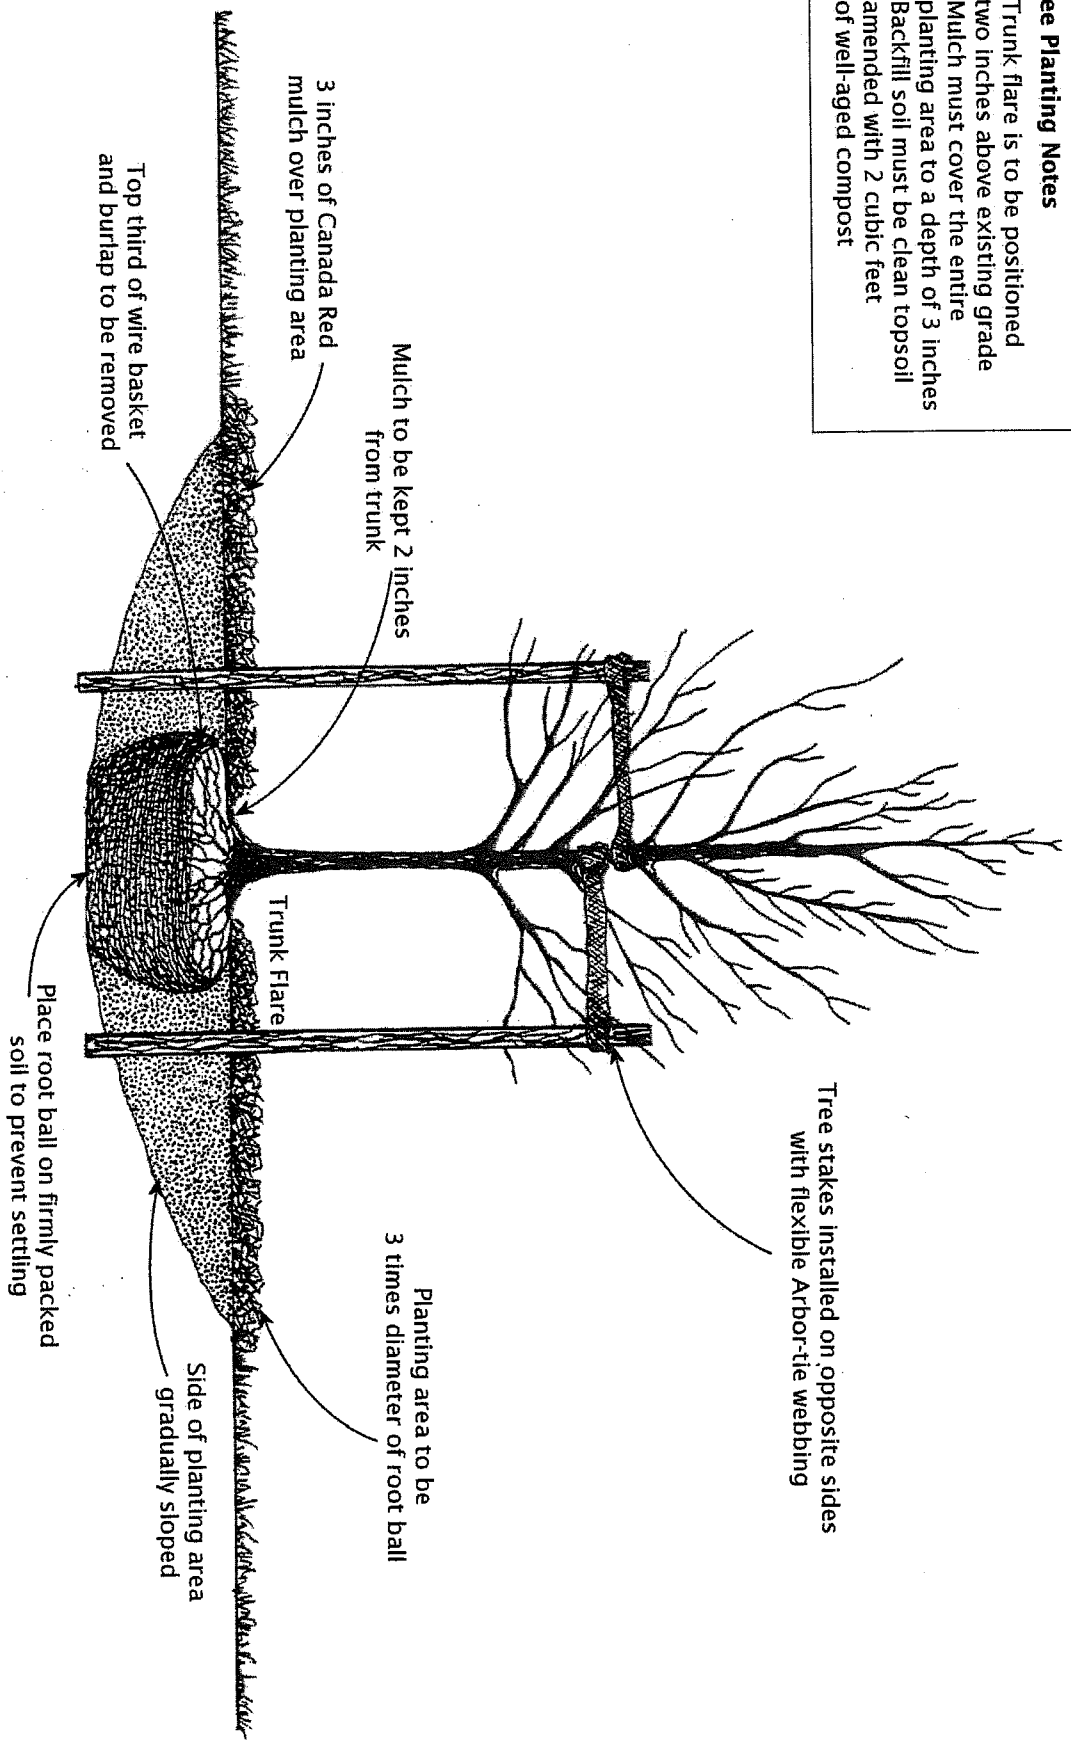

The following is a list of ornamental trees that would be suitable to plant within the Town of Tecumseh. They are intended for planting in formal parks and boulevards. Most of the listed trees are non-native species that are appropriate for use in built-up areas. These exotic species would not be appropriate for use in naturalization and restoration projects.

| | | | |
|--------------------|-------------------------------------|---------------------------|-----------------------------------|
| Hedge Maple | <i>Acer campestre</i> | Cut-leaf black Walnut | <i>Juglans nigra 'laciniosa'</i> |
| Three-flower Maple | <i>Acer triflorum</i> | Sweet Gum | <i>Liquidamber styracifura</i> |
| River Birch | <i>Betula nigra</i> | Magnolias | <i>Magnolia spp</i> |
| Hornbeams | <i>Carpinus spp & varieties</i> | Rust-resistant Crabapples | <i>Malus spp & variety</i> |
| Pecan | <i>Carya illinoensis</i> | Amur Cork Maple | <i>Phillodendron amurense</i> |
| Yellowwood | <i>Cladrastis lutea</i> | Saw-tooth Oak | <i>Quercus acutissima</i> |
| Japanese Dogwood | <i>Cornus kuosa</i> | Japanese Scholar Tree | <i>Sophora japonica</i> |
| Cornelian Cherry | <i>Cornus mas</i> | Korean Mountain Ash | <i>Sorbus alnifolia</i> |
| Turkish Tree Hazel | <i>Corylus colurna</i> | Lindens | <i>Tilia spp. & varieties</i> |
| Washington Thorn | <i>Crataegus phaenopyrum</i> | Lacebark Elm | <i>Ulmus parvifolia</i> |
| Hardy Rubber Tree | <i>Eucommia campestre</i> | Zelkovas | <i>Zelkova spp</i> |
| European Ash | <i>Fraxinus excelsior</i> | | |
| Manshurian Ash | <i>Fraxinus manshurica</i> | | |
| Flowering Ash | <i>Fraxinus ornus</i> | | |
| Gingko | <i>Ginko biloba</i> | | |
| Silverbells | <i>Halesia spp</i> | | |

The following is a list of native trees that would be very hardy and well adapted to harsh growing conditions such as boulevards and sites with compacted soil. Native trees should be used exclusively for naturalization projects.

| | |
|---------------------|-------------------------------|
| Swamp White Oak | <i>Quercus bicolor</i> |
| Chinquapin Oak | <i>Quercus muhlenbergii</i> |
| Red Oak | <i>Quercus rubra</i> |
| Shumard Oak | <i>Quercus shumardii</i> |
| Blue Ash | <i>Fraxinus quadrangulata</i> |
| Hackberry | <i>Celtis occidentalis</i> |
| Kentucky Coffeetree | <i>Gymnocladus dioicus</i> |
| Red Maple | <i>Acer Rubrum</i> |

- Tree Planting Notes**
- 1) Trunk flare is to be positioned two inches above existing grade
 - 2) Mulch must cover the entire planting area to a depth of 3 inches
 - 3) Backfill soil must be clean topsoil amended with 2 cubic feet of well-aged compost
