

Emergency Medical Registry

Please call the Tecumseh Fire Rescue Service if your loved one suffers from one of the following or any other life-threatening Medical Condition (regardless of your loved-one's age) that may impede their ability to respond or acknowledge the arrival of emergency first-response personnel on-scene. Once notified, we will include your loved-ones address in our (CAD) computer-aided dispatch system that will then notify attending crews of the name, age, sex and medical disability in order to ensure that timely intervention of search and rescue does not overlook those who may suffer from serious disease, physical or cognitive impairment. ✓

Alzheimer's Disease , Deaf or Mute
Seriously Hearing Impaired, Mobility
Impaired, Other Cognitive Impairment
Or any other life-threatening medical
condition

Remember that if you have concerns about the medical or fire safety of your family member, for whatever reason, please call the Tecumseh Fire Rescue Service and book a free inspection and/or candid discussion that will provide tips and a working plan to protect your family members. *All information provided will remain confidential at all times.*
