

Comprehensive Zoning By-law

By-law No. XX | Draft 2 – May 2026

How To Use This By-law

This User Guide is provided for information purposes, to assist readers in navigating the Town of Tecumseh's Comprehensive Zoning By-law and how to apply provisions to a specific property of interest. It does not form part of the Comprehensive Zoning By-law.

Structure of the Zoning By-law

The Comprehensive Zoning By-law is divided into a series of sections:

Section 1 – General Scope and Administration

Section 1 describes how the Zoning By-law is to be interpreted, and how the By-law is to be administered by the Town of Tecumseh.

Section 2 – Definitions

Section 2 provides specific definitions for commonly used terms in the By-law, all permitted uses, and other technical terms used in the Comprehensive Zoning By-law. These definitions ensure that the Comprehensive Zoning By-law is being interpreted and applied consistently.

Section 3 – Zone Classification

Section 3 provides an overview of all zones and corresponding zone symbols, along with an overview how to interpret the schedules of the Zoning. This includes information regarding properties with Holding Symbols, Suffices, and Exception Zones.

Section 4 – General Provisions

Section 4 provides general provisions which may be applicable to all zones, one or more categories or zones, or to specific uses, and additional requirements for specific situations. The reader should identify all general provisions that are applicable to their situation.

Section 5 – Specific Use Regulations

Section 5 includes policies related to specific uses associated with permitted uses to provide for additional provisions related to each specific use.

Section 6 – Parking and Access

Section 6 provides the minimum parking, loading and bicycle parking spaces requirements for uses permitted in the Zoning By-law.

Sections 7 to 14 – Zone Categories (Permitted Uses and Zone Regulations)

The Zoning By-law establishes several zones which permit certain uses, as well as requirements for the location and character of buildings and structures. Section 7 to 14 detail the permitted uses and zone regulations in each zoning category, including any applicable Exception Zones.

How to Determine a Property's Zoning and Identify Applicable Regulations

To determine the zoning and regulations that apply to a specific property, such as the uses that are permitted or lot and building requirements, follow these steps:

Step 1 – Identify the Property's Zoning on Schedule "A"

To determine the zoning for a property, you should first identify the property of interest on Schedule "A" (the Zoning Map). The Zoning Map is available as a PDF Schedule to the Comprehensive Zoning By-law and is also available for review through the online and interactive mapping website on the Town's website. Amendments to the Zoning By-law result in changes to the zone mapping. Please confirm with Town of Tecumseh staff that zoning is current.

Zone boundaries are outlined in red on the Zoning Map. Each property is associated with a Zone Symbol (e.g., IN, R3, OS). The legend on the Zoning Map explains the Zone Symbols and other elements shown on the map. The following summarizes the meaning of different types of Zone Symbols that you may see on the Zoning Map.

- Each Zone Symbol corresponds to a specific Section in this By-law (Sections 7 to 14) which details permitted uses, lot and building requirements, and additional provisions that apply to all properties within that Zone.
- If a Zone Symbol is followed by the letters LS in brackets (LS), then the property is subject to specific requirements along Lake St. Clair found in Section 4.2 of this By-law. This is known as a suffix zone.
- If a dash and a number follow the Zone Symbol, then the property is subject to property specific provisions under an Exception Zone. The provisions for each individual Exception Zone are found in Sections 7 to 14, respectively.
- If an (H) symbol is before the Zone Symbol, then the property is subject to a Holding Symbol. Where a Holding Symbol applies, no development can occur and only legally existing uses are permitted on the property, until such time that the holding is lifted. Section 3.2.9 of this By-law sets of the requirements to lift a Holding Symbol.

Step 2 – Check if the Property is Subject to Schedule "B" or "C"

Schedule "B" illustrates key natural features within Tecumseh. If the property is within the Natural Environment Overlay, make note of it and refer to Section 4.4 of this By-law.

Schedule "C" shows areas along Tecumseh Road that are subject to additional requirements as referred to under Section 8 of this By-law. This applies special restrictions to uses and buildings in the Town's Main Street Area.

Step 3 – Identify Permitted Uses and Lot & Building Requirements

Once the applicable Zone Symbol for the property of interest is identified, you should refer to Sections 7 to 14 to identify the types of uses that are permitted on the property under the applicable Zone.

Next, you should understand the requirements for lots and buildings which apply to a proposed development. In Sections 7 to 14, lot and building requirements are organized under a series of tables. Different types of permitted uses may have different requirements.

If a property has an Exception Zone applied, as identified in Step 1, the Exception Zone provisions may include specific permitted uses and lot and building requirements for the property that differ from Section 3 to 9 and should be reviewed.

Step 4 – Determine Applicable Provisions

It is important to review all sections of the By-law to determine the provisions that apply to a particular use, development, or property. The provisions of Sections 4, 5, and 6 apply to all Zones or specific permitted uses, unless specifically stated otherwise.

Property owners should always consult with Town of Tecumseh staff to confirm zoning information and determine the approval requirements for a particular project. If the provisions of the Zoning By-law cannot be met, a Minor Variance or Zoning By-law Amendment application may be required.
